

HLD Class of 2010-2011 Nomination Form

Dear Colleague,

We are recruiting for next year's class of the Health Leadership Development program and need your help. Please assist us in identifying members of your community who would benefit from this program.

As you think about prospective class members, please consider critical issues facing health care in Maine that would benefit from collaborative leadership. If you are able, identify individuals working on these issues. We also are interested in recruiting for diversity including work/life experiences, issue expertise, sector, gender, age, ethnicity, race, national origin, sexual orientation and disability.

Below is a Health Leadership Development Nomination Form. Once we receive your form, we will send your nominees a letter indicating who nominated them, along with an information packet and application form.

Please return this form to the Hanley Center no later than **March 5th**.

We thank you and value your input.

Jim Harnar and Steve Schuit
